EDUCATION

Princeton University, School of Engineering and Applied Science Expected May 2029
*B.S.E. in Operations Research and Financial Engineering, Minors: Computer Science, Sustainable Energy | **GPA**: 3.64/4.00 | Princeton, NJ*

TECHNICAL SKILLS

Languages: Python, Java, R, TypeScript, JavaScript, SQL
Frameworks & Libraries: NumPy, Matplotlib, Scikit-learn, PyTorch, React, Next.js
Tools & Platforms: Git, Vercel, Supabase, MS Office Suite

RELEVANT COURSEWORK

Data Structures & Algorithms, Introduction to Machine Learning, Probability & Stochastic Systems, Multivariable Calculus, Linear Algebra, Fundamentals of Statistics

PROFESSIONAL EXPERIENCE

Bottle Builders Ghana LTD, Founder and Executive Oct 2025 - Present
Greater Accra, Ghana + Remote

- Founded a mechanical plastic-recycling organization; built a coalition recycling 25,000+ kg of plastic waste/month
- Piloted GREENCO and KATAROS, the org's live waste-collection and inventory platforms, with the engineering team
- Designed and built the front-end gamification UI for GREENCO (XP, ranks, leagues), including a config-driven component system for tunable game parameters
- Directed R&D with chemical/civil engineers on a PET-reinforced concrete aggregate, achieving a ~63% increase in compressive strength

Krypton AI, Chief Operating Officer Feb 2026 - Aug 2026
Remote

- Recruited, onboarded, and trained 60+ analysts for $40M startup producing equity research on 300+ microcap companies and building agentic investor relations software
- Built internal dashboards and automation scripts (mail merges, recruiting pipeline tracking, weekly check-ins) to streamline analyst operations at scale

PROJECTS

Nhoma, Pig Farm Management Dashboard Next.js, TypeScript

- Built a multi-tenant SaaS dashboard for farm operations with invite-based onboarding, role-based access, and automated status reconciliation logic
- Led a full front-end rebrand, designed a themeable CSS variable system, custom SVG icon library, and reusable branded React components

LUCID - Project X, Interactive Web Experience JavaScript, HTML5 Canvas, SVG, Python

- Built a dependency-free, single-file interactive site featuring a custom frame-by-frame SVG animation system
- Wrote a Python (PIL/NumPy/SciPy) image-processing pipeline to auto-extract and classify map assets by color for use as UI overlays

TigerRentals React, JavaScript, FastAPI

- First place at Princeton Claude hackathon
- Built the front-end for a peer-to-peer rental marketplace enabling Princeton students to rent out unused items

Bottle Builders Website HTML, CSS, JavaScript

- Designed and built a five-page static site with a custom blueprint/cyanotype visual system, including scroll-triggered photo reveals
- Migrated URL structure and redirects from a legacy site with zero broken inbound links

LEADERSHIP & HONORS

- Course Fellow, Princeton University Preparatory Program: Taught Precalculus/Calculus AB, mentored 23 low-income high school students (Summer 2026)
- Head Tour Guide, Loomis Chaffee Admissions: Trained 60+ guides, increased recruitment yield 8% (2024–2025)
- National Merit Finalist, 2025
- Princeton AI Builders President, Princeton Club Soccer, Princeton E-Club Design Team
